FOR COMMISSIONER
J. T. REDWINE,

It is now estimated that the loss of life in the San Francisco earthquake will not total 1000. The property loss will aggregate \$300,000,000 as nearly every portion of the business part of the city was destroyed either by the shock or the subsequent fire. It is said that 150,000 inhabitants of the city are homeless, and that many of them are without the necessities of life. Thousands that were in affluent, or comfortable, circumstances, are now compelled to subsist on rations furnished by the government or purchased and furnished by the relief societies.

Our Republican brethren do not seem to dwell together in brotherly love and harmony out in the west end of this congressional district. Congressman Tyndall, who by mischance now misrepresents this district in congress, has not been endorsed in that end of the district, and now out in the county that was formerly his home, Christian, at the convention held one day last week, a gang of his henchmen, less than a majority of the convention, had to resort to unparliamentary and bull-doing methods to secure an endorsement for him. But a majority of the convention refused to be bull-doed and went outside the building and under a tree held another convention and passed resolutions denouncing the methods and course of the Tyndall supporters. The resolutions are enough to condemn the candidacy of any man, and if they are not enough the fact that this man Tyndall is not now a resident of this district, but lives in Springfield, where he has purchased a home, should knock him out before any sensible body of American citizens. But it is a difficult proposition to prognosticate what the Carruthersville congressional convention will do, controlled as it will be, presumably by a lot of postmasters and other government pap-suckers, who are afraid of their jobs should a respectable, honest fellow like Alf Perkins, be nominated. Of course, it don't matter very much who the Republicans nominate in this district this year, as General Joe Russell, the Democratic nominee, will be elected overwhelmingly, but it is much more gratifying, and a deal more agreeable to make a campaign against a gentleman like Perkins, than it would be to go up against such a political abortion of a man as this fellow Tyndall is said to be by the Republicans who know him.

T. L. Wright and Geo. A. Neel have purchased, from parties at Success, a steel bottomed launch upon which they will place their gasoline motors, and run the boat on the river this summer. The hull was delivered here this week.

Republican County Convention.

The Republicans of this county assembled in delegate convention at the courthouse in this city last Friday. There was the largest turn out that has ever, perhaps, in the history of the county, attended a Republican convention. Every township was represented either by delegates or proxy, and the morning session was called to order by County Chairman Elmer Herriff, about 10 o'clock. Alfred Perkins was elected chairman and C. O. Borth, secretary. After organization of the convention the remainder of the morning session was taken up with a speech by E. W. Flentge, of the Cape, who is a candidate for Railroad and Warehouse commissioner. The usual committees were appointed and the convention adjourned until afternoon.

The first business at this session was the committee reports all of which were adopted. Alfred Perkins was endorsed unanimously as the candidate for congress and he was authorized to name his own delegates. Delegates to the different conventions were J. R. Wright, C. B. Butler and O. B. Gomer to the state nominating convention at Excelsior Springs, May 31. To the Supreme court judicial convention at Jefferson City July 26, C. O. Borth and E. E. Herriff.

The county ticket was then named. It will be noticed that a number of the candidates have been on county tickets before in this county, in fact five or six of them have been on nearly every ticket named by the Republicans in the last eight or ten years. However, this condition arises from the fact that while many are named for the places but few will serve and the result is that those who do go on the ticket do it more as an obligation to the party than with any expectation of being successful. It is simply a case of being placed on the ticket in order that the positions might not go vacant. There had been an expectation growing that this convention would bring out and put out a lot of new material, candidates that would get out and try to make an impression, but it proved to be the same old story, the places were offered to many, but they all said "nay, nay, Pauline," and the convention fell back on the old standbys, and "set 'em up again on the same alley." The ticket is composed of a lot of nice men all through, and it is a pity they have to be led to the slaughter every campaign, for their fealty to their party faith is worthy a better fate. It is as follows:

Representative—C. P. Harmon, Doniphan.
Sheriff—J. L. Stelle, Briar Creek.
County Clerk—W. J. Hill, Pender.
Circuit Clerk—E. E. Herriff, Doniphan.
Collector, J. M. Jefferies, Doniphan.
Treasurer—John E. Johnston, Doniphan.
Presiding judge—A. O. Scott, Naylor.
Eastern district judge—S. W. Quick, Doniphan.
Western district judge—John F. Smelser, Burr.
Prosecuting Attorney—C. B. Butler, Doniphan.
Probate Judge—W. S. Doherty, Pender.
Coroner—Dr. W. D. Bennie, Naylor.

A BEAUTIFUL PICTURE.

Splendid Reproduction of a Celebrated Painting—Free.

Every person who sends one dollar to pay for a year's subscription to the Twice-a-Week Republic, of St. Louis, Mo., and Farm Progress, will receive, absolutely free, a beautiful colored picture, 24 by 32 inches in dimensions, entitled, "The Departure of the Bride from the Home of Washington." This picture is a direct reproduction from the celebrated painting by Ferris. Sixteen colors were employed in the process. It is made on a fine, heavy paper, and will make, when framed and hung, a magnificent ornament for the home. Aside from its genuine artistic merits, it possesses an uncommon interest to every American, as the central figure in it is George Washington, standing at the portal of his Virginia home, bidding adieu to the bride and bridegroom. The color work is highly ornate and correct in every detail, as are the character representations, costumes, etc.

The Twice-a-Week Republic is the oldest and best semi-weekly family paper in the country, and Farm Progress, which is also published by the Republic, is the fastest-growing farm monthly in America. Remember, that you get both of these splendid journals an entire year, and the beautiful big colored picture, all for only one dollar.

Present subscribers may take advantage of this offer, by sending a dollar and having their time marked up a year. The Republic hereby gives notice that this offer may be withdrawn at any time, and those who wish the picture, should send in subscriptions at once.

Remit by postoffice or express money order, registered letter or bank draft. Do not send personal checks. Write names and addresses plainly, and address, SUBSCRIPTION DEPARTMENT, The Republic, St. Louis, Mo.

ABOUT THATCHER'S ISLAND

Details of the Melancholy Shipwreck Which Gave the Place Its Name.

The twin lights of Thatcher's island are familiar to many who go down to the sea in ships and to many more who spend the summer months on the rocky headland of Cape Ann, but probably comparatively few are familiar with the details of the tragedy which gave the island its name, says the Boston Transcript.

It was on a long ago August—269 years ago, to be exact—that the Rev. Anthony Thatcher, his wife, four children and several other persons left Ipswich in a vessel for Marblehead, where Mr. Thatcher was to take charge of the church. They set sail on the 12th, a fair summer day, but "with a head wind and very little of it." They had a tedious time beating out of Ipswich bay and at night on the 14th had not yet succeeded in doubling the cape. A sudden, furious August storm came on to the night and the luckless craft was driven on the rocks, where she soon went to pieces.

Mr. Thatcher, after being buffeted about by the sea for a long time, was able to cling fast to a rock and climb on shore. Drenched and shivering, he walked about, vainly trying to see or hear something of his late companions. How dreary must have been that lonely vigil in the storm and darkness, while the insatiable sea thundered on the rocks about him and, like Paul under similar circumstances, he "wished for the day."

In the early dawn he saw his wife "getting herself forth from among the timber of the broken bark." He went to her assistance and she was soon safe beside him. All the others, 21 in number, perished. Among them were the Rev. John Avery, his wife and six children. The name of this unfortunate family is commemorated in "Avery's rock," a hidden reef shrouded by mariners, not far from Thatcher's island.

At the time of this melancholy shipwreck there were not more than two or three families on Cape Ann and no help came for Mr. Thatcher and his wife on the first day or the second. Fortunately, some provisions washed on shore from the vessel and the weather cleared, so they could make themselves comfortable during the time of their enforced stay. They were finally taken off by a fishing vessel and carried to Marblehead. Some years later Mr. Thatcher went from Marblehead to Yarmouth, where he lived to a good old age.

Other children were born to him and his wife, by whom the name is perpetuated in various places to this day. It was more than a century later that the twin lighthouses were built. They were first lighted on December 21, 1771.

SWEDISH COPPER INDUSTRY

Present Production Not Large, But Much Interest Is Manifested.

Among the economic phenomena at present attracting attention is the rise in the price of copper. Sweden is largely interested in the copper industry, though the present production of copper ore in the country is not large. A part of the combined Swedish copper works have based their production on foreign raw material. This is to be deplored as the more so Sweden is the only country in Europe (Norway, Portugal and Spain excepted) that has mines capable of a considerable copper output, although these mines are almost unworked. The import of copper ore for the past few years has amounted to 3,000,000 to 4,000,000 tons (\$584,000 to \$1,072,000) annually. With the large increase in the price of copper that has taken place during the last week, the price being now \$10 (\$18.66) a ton, the value of the import would be increased to not less than 7,000,000 to 8,000,000 crowns (\$1,876,000 to \$2,144,000).

How are we to avoid this unnecessary payment to foreign countries? Is the increase in price momentary, or will the price of copper keep steady at a high level for some time? This is a question of the greatest importance for the Swedish copper industry. If the price of copper, on account of the small supply and the great demand, will keep high, the time may have come for us to work several of the particularly important copper mines of Sweden. The market prospects are at present very favorable for the Swedish copper works. The rise in the price of the ore will probably not influence the consumption, but will be an increased tax on the countries which have to buy.

Motor-Car Savings Bank.

A current newspaper paragraph tells of a "motor-car savings bank" which makes journeys in the north of France, stopping in villages on stated days to receive such sums as thrifty country people, having saved, may be desirous of depositing in a savings bank. The motor car, which is electrically driven, carries a small safe, a desk with folding shelves for the depositors, with accommodations for two clerks and a cashier and a seat for the driver.

The Backbone of a Mighty Nation

is good food—food for brain, food for brawn, food that is strengthening, that gives energy and courage. Without a proper appreciation of this great fundamental truth no nation can rise to greatness.

As an article of food, soda crackers are being used more and more every day, as is attested by the sale of nearly 400,000,000 packages of **Uneeda Biscuit**, which have come to be recognized as the most perfect soda cracker the world has ever known.

And so **Uneeda Biscuit** will soon be on every table at every meal, giving life, health and strength to the American people, thus in very truth becoming the backbone of the nation.

Edges That Last

Probably you have bought edged tools made of steel that was crumbly, or too soft to hold an edge, or so hard as to be brittle. You may have bought them for good tools, too. There is, however, a sure way to get tools with edges that last. It is simply to ask for the Keen Kutter Brand when buying. Keen Kutter Tools have been standard of America for 36 years, and are in every case the best that brains, money and skill can produce. They are made of the finest grades of steel and by the most expert tool makers. As a complete line of tools is sold under this brand.

KEEN KUTTER

The draw knife shown here is an example of the excellence of Keen Kutter Tools. It has a nicety of balance and "hang," which has never been successfully imitated, and it is made of the best steel ever put into a draw knife.

Yet the Keen Kutter Draw Knife is no better than all other Keen Kutter Tools.

The Keen Kutter Line was awarded the Grand Prize at the St. Louis Fair, being the only complete line of tools ever to receive a reward at a great exposition.

Following are some of the various kinds of Keen Kutter Tools:
Axes, Adzes, Chisels, Planes, Draw Knives, Saws, Tool Chisels, Strykers, Ring Knives, Chain Saws, Broad Tools, Cross Cut Saws, Dry Saw, Trussing, Pruning Shears, Trussing Nails, Saws, Saws, Hair Clippers, Horse Shears, Razors, etc., and Knives of all kinds.

If your dealer does not keep Keen Kutter Tools, write us and we will send you the nearest dealer. Every Keen Kutter Tool is sold under this mark and name.

"The Recognition of Quality Remains Long After the Price is Forgotten."
